Sitamarhi, India | +91 72609 38384 | utkarshyuvraj16@gmail.com | utkarsh.y23@iiits.in | Portfolio | LinkedIn | GitHub

Summary: Aspiring Software Development Engineer with a strong foundation in backend systems, REST API design, and full stack web development. Skilled in building secure, scalable applications using Node.js, Express.js, React.js, and MongoDB. Former backend contributor at GDG IIIT Sri City with hands-on experience in JWT authentication, MVC architecture, and Database design.

Education

B.Tech in ECE (7.56 CGPA) Indian Institute of Information Technology, Sri City	Aug 2023 – Present
Class XII (CBSE) 84.8% NS DAV Public School, Sitamarhi	2022
Class X (CBSE) 93.4% NS DAV Public School, Sitamarhi	2020

Experience

Web Developer Intern – Software Education & Research (P) Ltd. **LOR | Internship Certificate**
Client: State Election Commission of Bihar | **Live:** sec25.bihar.gov.in/ScannerPool | 17 May 2026 – 17 July 2026 | Two Months (**Onsite**)

- Built a **production grade PDF scanner** web app (backend + REST APIs), deployed live for the Bihar State Election Commission – supports configurable scan zones and **batch processing of 1000+ files**.
- Built a **bilingual OCR pipeline** (Hindi + English) with fuzzy matching for noisy documents; deployed on an **air gapped government server** with no internet dependency.
- Designed a **multi layer security system** with query validation and allowlist/blocklist checks to enforce read only database access via secure REST endpoints.

Tech Stack: SQL Server, Dapper, Tesseract OCR, EasyOCR, Ollama (Llama 3.2), REST API Design, Backend Security

Projects

Blogify – Full Stack Blogging Platform Live | GitHub

- Built a blog platform using **Node.js, Express.js, and MongoDB** with structured storage for posts, categories, and comments following **MVC architecture**.
- Secured routes with **JWT authentication** and middleware validation; built **RESTful APIs** for full CRUD operations with consistent error handling.

Tech Stack: Node.js, Express.js, MongoDB, JWT, MVC, REST APIs

Bookify – Book Selling Platform GitHub

- Built a full stack bookstore using **React.js** and **Firebase Firestore** for real-time storage of books, users, and orders with a modular service design.
- Implemented **Firebase Authentication** with role-based access control (RBAC) for admin, seller, and user roles – securing all protected routes.

Tech Stack: React.js, Firebase (Firestore, Authentication), JavaScript, HTML, CSS

Technical Skills

- Languages:** C, C++, JavaScript, HTML, CSS
- Development:** Node.js, Express.js, React.js, RESTful APIs, MongoDB, MySQL, Firebase, JWT, Authentication & Authorization, RBAC
- Tools & Platforms:** Git, GitHub, Docker, VS Code
- CS Fundamentals:** Data Structures & Algorithms, OOP in C++, DBMS, Operating Systems

Achievements

- Secured **3rd Rank** in Kaleidoscope of Wisdom Quiz 2023 at IIIT Sri City.
- National Science Olympiad – **District Rank 2 (Silver Medal)**, 2017.
- Gold Medal in House Wise **Basketball Competition** 2025; Zonal Level Basketball Participation 2019–20.

Position of Responsibility

- Core & Backend Member – Google Developer Group (GDG), IIIT Sri City** Certificate | Aug 2025 – May 2026
Conducted backend workshops on API design, JWT authentication, and Node.js deployment for students.
- PR Team Member, Web3ssh – IIIT Sri City**
Handled outreach and communications for the college’s technical fest, coordinating with sponsors and participants.
- Operations & Logistics Team, TEDx IIIT Sri City** Certificate
Managed on-ground logistics to ensure smooth execution of talks and speaker sessions.
- Tester, Fluidity.site** Certificate | Dec 2024 – Jan 2025
Performed functional and usability testing; reported bugs to improve product stability before release.
