EDUCATION

Indian Institute of Information Technology, Sri City **2023 – Present**
Bachelor of Technology in Electronics and Communication Engineering
CGPA: 7.58

XII (CBSE Board), NS DAV Public School, Dumra, Sitamarhi **2022**
Result: 94.3%

X (CBSE Board), NS DAV Public School, Dumra, Sitamarhi **2020**
Result: 84.8%

SKILLS & ACCOMPLISHMENTS

Technical Languages: C, C++, JavaScript, HTML, CSS

Tools & Platforms: VS Code, Git, GitHub, Docker

Databases: MongoDB, MySQL, Firebase

Coursework: Data Structures & Algorithms (Basics), OOP in C++, DBMS, Operating Systems, Control Systems

Technical Skills: Backend Development, Node JS, Express JS, REST API Development, Authentication & Authorization, React JS, Git Version Control

Soft Skills: Problem Solving, Logical Thinking, Teamwork, Communication

PROJECTS

Bookify (Full-Stack Bookstore Platform) **2026**

- Developed a full-stack bookstore application supporting structured storage of books, users, and orders using React.js and Firebase (Firestore).
- Implemented authentication and authorization using Firebase Authentication to secure user-specific operations.
- Designed APIs and services for book listing, cart management, and order processing.
- Applied modular architecture and reusable components for scalable and maintainable application development.

Blogify (Full-Stack Blogging Platform) **2025**

- Developed a full-stack blog application supporting structured storage of blog posts, categories, and comments using Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and authorization to secure protected routes.
- Designed REST APIs for content creation, editing, and deletion.
- Applied MVC architecture and middleware validation for maintainable backend code.

Secure URL Shortener with Authentication **2025**

- Built a URL shortening backend for efficient link generation and redirection.
- Implemented user authentication and authorization for secure URL access.
- Designed REST APIs for URL creation and management.

- Structured MongoDB collections for optimized data storage and retrieval.

Threads-Style Backend Application

2025

- Developed backend functionality for user profiles and post management using Node.js and Express.js.
- Designed REST APIs for user interactions and content operations.
- Implemented authentication mechanisms for secure data access.
- Managed structured data storage using MongoDB.

POSITION OF RESPONSIBILITY

- **Core & Backend Member, Google Developer Group (GDG), IIIT Sri City** Aug 2025 – Present
- **PR Team Member, Web3ssh — IIIT Sri City**
- **Operations & Logistics Team, TEDx IIIT Sri City**
- **Tester, Fluidity.site** Dec 2024 – Jan 2025

ACHIEVEMENTS

- Cleared College Round of Smart India Hackathon 2024
- Secured 3rd Rank in Kaleidoscope of Wisdom Quiz 2023
- National Science Olympiad — District Rank 2 (Silver Medal) 2017
- Gold Medal — House Wise Basketball Competition 2025
- Zonal Level Basketball Participation 2019–20
